INTRODUCTION

Front-end Developer with 2.4 years of experience in building responsive and user-friendly web applications using **React** and **Angular**. Passionate about creating engaging, accessible UI experiences and improving application performance. Proven ability to optimize load times, enhance cross-browser compatibility, and collaborate with cross-functional teams to deliver seamless user interfaces.

EXPERIENCE

Pratishthan Software Ventures

Bengaluru, Karnataka

Senior Software Engineer

April 2024 – Present

- Developing a flow creator using **React Flow** and **Redux Toolkit** to allow users to create flows and train chatbots.
- Collaborating closely with product managers, designers and backend engineers to implement a user-friendly UI, improving the user journey through design consistency and clear navigation.
- Reduced data payload size by 40% through **state compression** (e.g., Gzip) and optimized state updates, improving application performance.
- Created a custom **React Flow** UI for dynamic child-parent node movement, reducing costs by 20%.
- Implemented responsive web design techniques, ensuring optimal performance and usability across mobile, tablet, and desktop devices.
- Integrated theme synchronization across **Angular** and **React** applications via **iframe**, streamlining theme management for light/dark modes.

Software Engineer

June 2022 – March 2024

- Led the frontend development for a hybrid mobile app using **Angular**, **NgRx**, **Ionic**, and **Chart.js**, boosting user engagement by 25% with interactive data visualizations.
- Integrated **internationalization** features, enhancing accessibility for 5+ regions, ensuring compliance with localization standards.
- Optimized application load times by 50%, increasing session duration by 20%.
- Developed custom tooltips and enhanced **bar/pie charts** using **Chart.js**, improving data clarity for over 5,000 users.

Translab Technologies (Outsourced to Pratishthan Software Ventures)

Bengaluru, Karnataka

Intern

June 2021 – May 2022

- Revamped the dashboard UI of a **Nebular/Angular** application, enhancing usability and increasing user satisfaction by 15%.
- Implemented cross-browser compatibility fixes to ensure a consistent experience across Chrome, Firefox, and Edge.
- Debugged a **Java application** using **Log4j**, fixing scheduler issues and improving efficiency by 25%.

CURRENT PERSONAL PROJECT

Quickbite

Repo

- Full-stack application inspired by Zomato and Swiggy, currently under active development with a user-friendly interface optimized for mobile and desktop users.
- Implemented secure user authentication using **OAuth** and utilized **Observables** for real-time updates in the shopping cart.
- Tech Stack: Angular, Node.js, Express, MongoDB, HTML5, CSS/SCSS, JavaScript/TypeScript, RxJS.

EDUCATION

Chitkara University

June 2022

Bachelor of Engineering(B.E.) in Computer Science (CGPA: 9.63 / 10)

Baddi, Himachal Pradesh

TECHNICAL SKILLS

Languages: JavaScript/TypeScript, HTML, CSS, SASS

Web Development: Responsive Web Design (RWD), Cross-browser Compatibility, UI/UX Design, Accessibility (WCAG), Bootstrap

Frameworks/Libraries: React, Angular, NgRx, Redux Toolkit, Ionic, React-Flow, Chart.js

Tools: Webpack, Babel, ESLint, Prettier, Figma, Postman

Version Control: Git, SmartSVN

Soft Skills: Leadership, Fast Learner, Problem Solving, Collaboration
