WORK EXPERIENCE

Codeshastra Pvt. Ltd. | Junior Full Stack Developer

Oct 2023 - Present

- Spearheaded a cross-functional team in developing and launching three live web applications,integrating frontend (React) and backend (Node.js) technologies.
- Enhanced APIs using Azure AI Services to improve functionality and performance by 30%.
- Achieved a 40% increase in user engagement and retention rates through successful application launches.
- Demonstrated expertise in data fetching and management using React and Node.js.
- Developed "Hamari AI," an AI-driven site built with React Astro on the frontend and Node.js and Supabase on the backend.
- Created Codeshastra.com using Next.js on the frontend, and Node.js and WordPress Headless on the backend.

Unikasha | Full Stack Developer Intern

Aug 2023 - Oct 2023

- Debugged web applications, gaining significant technical experience and problem-solving skills.
- Built a Food Delivery React App, focusing on the frontend, specifically the home page.
- Created and validated signup and login forms for an E-Commerce Website.
- Employed a modular design approach to facilitate scalability and ease of future development.

Technical Skills: Next.js, React.js, Python, Node.js, Express.js, JavaScript, HTML, CSS

Databases: SQL, MongoDB, Supabase, Firebase

Development Skills: Frontend Development, Backend Development, Web Design, REST API

Developer Tools: VS Code, Azure, AWS

Soft Skills: Communication, Analytical & Problem Solving, Leadership

CERTIFICATION

Certified in Full Stack Development (by Unikaksha)   **2023**

Certified in Data Science & Analytics (by Upgrad)   **2022**

PROJECTS

Hamari AI - AI Driven Website [HamariAI ➤](#)

- Spearheaded the development of "Hamari AI," an AI-driven website providing intelligent solutions.
- Led the design and implementation of responsive and intuitive user interfaces using React.js, ensuring a seamless user experience across devices.
- Demonstrated strong technical skills and adaptability in resolving technical challenges and meeting project deadlines within my team environment.
- Integrated Supabase, a real-time database platform, for dynamic data synchronisation and live querying, enabling 45% growth in and real-time updates and notifications.

E-Commerce APP - MERN

- Implemented a modern and intuitive user interface using React.js.
- Developed a robust server-side application with Node.js and Express.js, handling user authentication, product management, and order processing.
- Integrated MongoDB as the database to store and retrieve product information and user data.
- Utilized RESTful APIs to ensure efficient communication between frontend and backend systems.
- Conducted thorough testing and debugging to ensure the reliability and performance of applications.

EDUCATION

BSc - Mathematics (2023)   9.2 CGPA
WCS College, Solapur

HSC (2019)   66.15%
WCS College, Solapur
