Kuncham Rakesh

Mobile: +91-7675842479
E-mail: rakeshkuncham1012@gmail.com

Professional Synopsis:

- ✓ 6 Years of experience on Oracle 10g/11g/12c/19c as Database Administrator using Real Application clusters (RAC).
- ✓ Seeking Oracle Database Administrator position in a challenging environment, where I can make significant contribution towards company's immediate and future goals.

SKILLS

Tools and Technologies

Import/Export, Oracle Recovery Manager, Oracle Data Guard, Disaster Recovery, Oracle Real Application Clusters, Database Administration, Relational Database Management System (RDBMS), Shell Scripting, Oracle Database Administration (DBA), Oracle Toad

Analytical Skills and Methodologies

User Management, Backup & Recovery, Patch Management

Other

Automated Storage Management (ASM), Oracle SQL

Work Experience:

Working as an Oracle Database Administrator with **Randstand India,** Hyderabad from December 2019 to June 2020.

- ✓ Working as an Oracle Database Administrator with **Legato health Technologies,** Hyderabad from July 2020 to Oct 2022.
- ✓ Working as an Oracle Database Administrator with **CAPGEMINI,** Bangalore from Jan 2023 to July 2024
- ✓ Working as an Oracle Database Administrator with **Infosys Limited,** Chennai from Aug 2024 to till date.

Educational Qualification:

- ✓ Intermediate (10+2) from Intermediate Board (Tulasi Murari Jr. College), Gajuwaka, Vishakhapatnam, in the year April 2011.

- ✓ B.B.A from MG University, Nalgonda in the year May 2017.

Skill set:

Operating Systems	**:** RHEL, OEL. DMS Monitoring tool
Databases	**:** Oracle 10gR2 & 11gR2,12c, 19c
Languages	**:** SQL/PLSQL.
Tools & Utilities	**:** Data Pump, RMAN, SQL*Plus Putty, OEM,DGMGRL.

Project Detail :

1.	Company	: HSBC
	Client	: HSBC
	Duration	: Dec 2019 to June 2020
	Work Location	: Hyderabad
	Designation	: Oracle DBA

Acquired great hands on experience on Data guard.
Supporting 10g & 11g & 12csingle environment databases.
Have supporting 11g &12c RAC environment databases.
Maintaining RAC with ASM environment.
Monitoring space utilization and add data files to Tablespace when needed.
Applying Datapatch for 12c databases and catbundle for 11g databases.
Relocation of goldengate resources while applying patches.
Rebuilding Indexes in Production environment to increase performance.
Performing logical backups by using expdp and impdp.
Performing RMAN full backups and should ensure it has to be archiving to tape.
Applying PSU Patching.

Applied Patches on databases by using Opatch utility.
Experience in Gathering Table, Column, Index stats.
Experience in reorganization the Tables which are fragmented.

Experience in finding Long running quires
Administrating RAC databases using SRVCTL and CRSCTL.
Interacting with Oracle Corporation for technical support through metalink.
Regular monitoring of Alert log file on day-to-day basis.
Analytical and able to adapt to new environments and learn new technologies quickly.

Responsibilities:

Created Users, Roles, Profiles and assigned granted privileges and Roles to users and password resets.

Monitoring the alerts ,if any file sytem usage is full we cleared trace files and troubleshooting the issues accordingly.

Daily we can do the DB health checks and if any issue we found, troubleshooting the issues accordingly.

Gathering Database, Table, Column, Index stats.

Monitoring RMAN backups, if any backups is failed we check the log files and we fix it.

Monitoring TSM scheduled backups, if any backups is failed we can re-initiated the backups.

Creating and deleting restore points in both primary and standby databases as per requirement.

Monitoring the Primary and standby databases sync .

Restore & recover and Refresh the database as per requirement.

Creating SR's and working with Oracle support and troubleshooting the issues accordingly.

Monitoring the databases performance through OEM.

Deleting old snapshots as per requirement.

Doing database refresh activities monthly as per dev team request.

Working on query tuning if slow running jobs.

Working on session and object level locks.

Working on performance tuning activities.

Experience in Configuring and managing backup through RMAN utility.

Experience in Backups and Recovery and Cloning of databases using RMAN.

Experience in Configuring and maintaining Physical standby/Active standby databases.

Experience in maintaining the Cluster databases using srvctl and crsctl.

Technology and Skills:

Automated Storage Management (ASM), Backup & Recovery, Disaster Recovery, Import/Export, Oracle Data Guard, Oracle Real Application Clusters, Oracle Recovery Manager, User Management

2. **Company   : Legato Health Technologies**
    Client   : Health Care
    Duration   : July 2020 to Oct 2022
    Work Location   : Hyderabad
    Designation   : Oracle DBA

Responsibilities:

Created Users, Roles, Profiles and assigned granted privileges and Roles to users and password resets.
